Exhibit 3- AJGA Rolex Rankings vs Junior Golf Scoreboard Rankings vs WAGR

AJGA Rolex Rankings

A National Ranking System in which players accumulate points through participation in AJGA events as well as additional events that are recognized by the American Junior Golf Association

Junior Golf Scoreboard

National Junior Golf Ranking that uses a formula to compare how players rank (Nationally, Locally, and within their own graduating class)

World Amateur Golf Rankings: A Global Amateur Golf Ranking System, through which male and female amateur golfers are ranked by finishes in counting events that meet a certain criterion.

Junior Golf Scoreboard Formula (65%/25%/10%)

65%- Junior Golf Scoreboard records 75% of lowest scoring differentials in the last 365 days based on the USGA Course Rating.

25%- Junior Golf Scoreboard has derived a formula that takes into consideration the strength of fields of all events in which a player has competed in. A number is derived from this formula and counts toward 25% of a player's ranking.

10%- Junior Golf Scoreboard has a table in which they display the finishes by a given player. Factors such as overall tournament finish, and number of players in a player's given field are taken into consideration. This table counts towards 10% of a player's ranking.

Exhibit 2- 2025 SNJGA Travel Team Proposal
